## STOCKS HOLDING FIRM

New York Brokers Who Want Lower Prices Afraid to Move.

Activity Caused by Several Unfounded Rumors-Indianapolis Grain Active on Larger Receipts.

At New York yesterday money on call was easy at 1611/2 per cent., the last loan being at 11/2, closing at 11/2.

Prime mercantile paper, 4% 66% per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.84%@4.84% for demand and \$4.8214744.8312 for sixty days; posted rates, \$4.83%4.83%; commercial bills, \$4.813/664.8134.

Silver certificates, 691/207014 cents. Bar silver closed at 69c per ounce; at London, 32 1-16d. .

Total sales of stocks amounted to only 180,800 shares.

A duller or less interesting day than yesterday has not been experinced on the New York Stock Exchange for months. The only activity was among the rumor mongers, whose fecundity was abnormal and, as usual, the reports in circulation were intended to depreciate alues. Though in most cases speedily denied, they served the purpose of the authors to make quick turns on the short side of the act. But, in spite of all efforts of bear traders to establish a lower range of values and in the face of an inactive market, a remarkably firm undertone characterized the dealings. In making up the balances for the day a greater number of shares were placed in the column of advances than in the column of declines. A reason for this is to be found in the timidity of the short interest, which is now disposed to leave its lines long outstanding and seek to secure its profits by covering at each moderate decline. The purchases for this account, supplemented by new buying, even though in small volume, serve to restore values. As the market, in its present temper, is more sensitive to a purchasing than to a selling movement, it requires a lighter volume of business to move the market up than to send it down. The bears are not, therefore, doing a very profitable business in the market as it stands, and they do not seem to consider the conditions ripe for a more vigorous and necessarily more risky campaign. An attempt was made to frighten holders of Louisville & Nashville by the circulation of a story, alleged to have come from London, to the effect that several of the directors intended to resign. This was denied at the company's office in New York, and a report that the Chesapeake & Chio Southwestern deal had been declared off was denied on the authority of Mr. Belmont, of the Louisville & Nashville directory. Neither canard had an appreciable effect on the stock. Western Union was sold down 1% per cent. on a renewal of the reports of decreased earnings, and it was rumored that a combination had been formed to bear the stock. When the pressure to sell was renewed in the afternoon a recovery of 1 per cent. was made. The industrials were raided on private dispatches from Washington suggesting unfavorable tariff changes. Sugar yielded 15, Lead preferred 114 and Cordage preferred 4 per cent.,

tone prevailed, and the active list was generally a fraction higher than at Tuesday's An unsettled tone characterized the dealings in the railway and miscellaneous bond market, the principal change being an advance in Chicago, Burlington & Northern fives of 4% per cent.

Merchants Enjoy the Arrival of a Cold Wave Making Prices Steady. The temperature of yesterday came nearer 44/45c. meeting the wishes of the wholesale merchants than any they have been treated to since the fall months set in. A few days of such weather will make fall and winter goods move more briskly. In fact, yesterday dry-goods houses and boot and shoe establishments presented a livelier appearance. Morning trains brought in a number of good buyers, and mail orders were very satisfactory. Another gratifying feature is that collections are improving, and as the

changes. Asseason of the year has been reached when prices fluctuate less than when fruits and produce just begin to come on to the market. There is a little better tone to the hide market, and green-salted

Pussy Among the Mirrors.

A strange cat strayed into the Crystal Maze one day last week and left not long after one of the most perturbed felines in New York city. Walking around between the mirrors she saw her own reflection on all sides. She was not pleased. Her tail started to swell and she rushed at the nearest cat, which advanced to meet her at the same rate of speed. With a shrick of defiance they met and the ugly-tempered feline fell back from a fearful bump against a mirror. Up she jumped and looked around, only to

see an array of abused cats staring at her. When she moved 137 moved also. With a mighty yowl of disgust she turned to fise. Groups of cats greeted her everywhere as she dashed into the mirrors and tried to climb the slippery surfaces of the glasses. In the course of ten minutes the animal came out through the exit as if shot from a catapuit. With two enormous bounds she reached a window, and, without stopping, jumped out into the street, falling about twenty or thirty feet. Without stopping for an instant she rushed into Thirty-eighth street, and disappeared in one of the adjacent stables, a very badly "rattled" cat.

BEARS RUN TO COVER

In the Face of Adverse News Chicago Grain Advanced.

Heavy Increase in United States Stocks Shown by Bradstreets-Pork Weak, but Hog Receipts Small.

CHICAGO, Nov. 15 .- Covering by shorts, reports of drought and lighter Northwestern receipts favored wheat to-day. Despite many bearish influences, December closed 1/2c higher than yesterday. Corn ruled firm on light receipts and small offerings, and oats gained 1/2c on corn's firmness. Provisions took a reverse course to that of the grain markets. Notwithstanding small receipts of hogs, hog products were weak. Pork made a break of 50c and both lard and ribs .15c.

Wheat opened near yesterday's figures, and for the first half hour showed an upward tendency. Receipts in the Northwest were light, and drought was reported in the winter wheat belt. But weaker cables caused a reaction, and Bradstreet's report, showing a heavy increase in United States stocks, combined with smaller export clearances, caused a break, and December wheat went to 60%c. Near the close covering by shorts caused a reaction, and, with moderate buying by Walker & Wren, helped the market to a decided improvement at the close. It was said Bryant bought 500,000 bu of May wheat at 68c, and that a lot of wheat was covered for Pardridge and Smith's account before the close. December opened at yesterday's figures of 60%@61c, sold up %c, reacted 16@%c, and climbed %@ %c to the close.

Corn began at /yesterday's prices on light receipts, and some of the heavy local shorts covered freely. Reports from the country that farmers are reluctant to sell corn at current prices also acted as a sustaining influence. Offerings were light. Peaches - Standard, 3- pound \$1.85@2; Fifteen Transfers Yesterday, with a May opened at 41c, rose 4c, gained and lost se several times, rose %c above the opening, lost its gain, rallied and closed at 41%c, or ½c above yesterday's close.

Oats followed corn in its fluctuations, with very little trade. Harry Scull bought 100,000 bushels, supposedly for a short account, and this helped to firm up the mar-ket. May started at 31%c, where it closed yesterday, gained %c, then %c, lost %c, gained 1/6%c, and closed at 31%c. Provisions opened at a slight advance on smaller hog receipts than expected, but on free selling by Hately and Roloson and others prices broke badly. As compared with last night January pork is 45c lower, Janauary lard .15c lower, and January ribs The offering of vessel room were lighter,

the inquiry fair, and rates 4c higher, at 2c for wheat and 1%c for corn to Buffalo. Boats are laying up for winter, and by stripping now can save 10 per cent. of their insurance. Estimated receipts tomorrow are: Wheat, 160 cars; corn, 270 cars; oats, 140 cars; hogs, 26,000. Leading

It is frequently asked how much mustard should be given if it is desired to make a patient sick in case of croup or poisoning. A tablespoonful of ground mustard to a tumblerful of warm water is the rule. Salt is almost as efficacious as mustard if the latter is not at hand. If the first tumbler has no effect give more and tickle the back of the throat with a feath-

Common alum melted in an iron spoon over hot coals forms a very strong ce-ment for joining glass and metal together. It is the best thing for holding glass lamps to their stands or for stopping cracks about their bases, as kerosene does not penetrate it. Housekeepers ought to keep this in remembrance, for sad accidents may be prevented by its use.
